# Harlem Biospace

An affordable co-working wet-lab,  
right in Manhattan

OPEN  
SINCE  
2013

## A different type of lab space

Urban decor with a  
scientific spirit

Furnished and decorated  
by some of NYC's most  
talented up-and-coming  
designers and equipped  
by top manufacturers of  
scientific instruments, Hb  
is designed to inspire  
innovation and foster a  
vibrant community of  
biotech entrepreneurs.

A handmade,  
wooden workplace

Desks and lighting  
fixtures are handmade in  
Brooklyn by Coil and Drift  
using locally-sourced  
reclaimed wood salvaged  
from the Factory District  
and industrial iron piping.

Each desk features a key-  
locked drawer and  
adjustable-height shelf.

## Unlimited, 24/7 access to equipment

- cell-culture incubators and hoods
- benchtop centrifuge
- autoclave
- chemical fume hood
- microscopy
- multiple cold storage spaces
- biohazard and chemical disposal

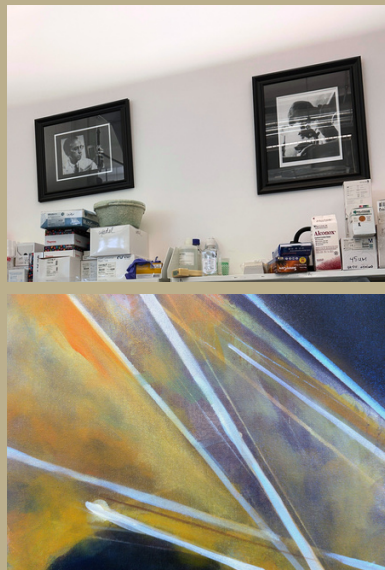

## A thriving community of biotech innovators

Work alongside fellow scientists, researchers, and entrepreneurs in the thriving intellectual hub of West Harlem.

All-inclusive access to office and lab space, utilities, wifi, and printing. Unlimited access to wet-lab equipment.

\$1145 per desk and shared lab bench per month. 6-month commitment only. No equity asked.

### Inspiring art and life sciences
